

# **The 6<sup>th</sup> NCC International Symposium**

## **(Tentative Agenda)**

### **“Management of Carcinogenic Hazard: Recent Progress and Future Perspectives”**

**Goyang, Republic of Korea,**

**June 19 ~ 20, 2012**

#### **Introduction**

The NCC Korea has been a leader in national cancer control programs and cancer research in Korea since it was founded in 2000. As one of its ongoing efforts to overcome cancer, since 2007 the NCC Korea has organized an annual international symposium. It will focus this year on the management of carcinogenic hazard as the title of “Management of Carcinogenic Hazard: Recent Progress and Future Perspectives”.

With the sharing experiences and visions from world leading experts, the symposium will contribute to enhance the international collaboration for evaluation and management of carcinogens as well as to develop comprehensive national program for carcinogenic agents control in Korea.
